Aldila Rochidias

Senior Full Stack Engineer | Laravel, Next.js, & TypeScript
Central Java, Indonesia

Summary

Software engineer with 10+ years of experience delivering web applications, backend systems, and mobile applications across multiple frameworks including Laravel, Next.js, and React Native. Experienced in backend architecture, RESTful APIs, database optimization, CI/CD workflows, Docker, MySQL/PostgreSQL, and Linux server administration.

I enjoy building reliable systems, improving development workflows, and integrating practical AI capabilities. Actively expanding into AI ecosystem with hands-on experience in RAG systems, agentic workflows, LLM pipelines, and automation tooling.
